

Steps for Synchronizing GDSN Data for Existing Walmart Items

- 1. Contact Retail Link Technical Support with your GLN and 6-digit Vendor Number**
at Tel: +1 479-273-8888 or vendoraccess@wal-mart.com
 - Note a Subscription (CIS) must be received before you publish
- 2. Review documentation and webinars provided on Walmart's Retail Link**
 - Retail Link → Site Map → Data Synchronization Information
- 3. Load items to your data pool**
 - Ensure your data is accurate (pack quantities, measurements, weights, country of origin, etc.)
 - Load all item levels in your packaging configuration (hierarchy) Each, Case, & Pallet
- 4. Publish existing Walmart items**
 - Publish to the Wal-Mart US GLN: 0078742000008
 - Publish items as Initial Load
- 5. Manage Confirmation (CIC) Responses from Walmart**
 - If you receive REVIEW or REJECTED status, access the Synchronization Report to determine error and next step
 - Retail Link → Site Map → Online Item File (select the Online Item File located in the middle column) → Data Synchronization Tools → *Synchronization Report*
- 6. Going forward, all changes should come through your data pool**
